

## **Arena Golf, Inc. Selects MBSII.Net to Provide Software Infrastructure**

**Press Release – August 14, 2003**

MBSII.Net, LLC the leading provider of enterprise software for Country Club Management, today announced that Arena Golf, Inc. has selected Clubmaster Country Club Management system to power its first of many corporate franchised indoor Golf centers. Arena Golf headquartered in Castro Valley, CA. selected MBSII.net's Clubmaster solution after an extensive evaluation of other technology providers to partner in the launch and strategic objective to open 30 indoor Golf Centers across the country.

Clubmaster software is an Internet-based commerce solution with an integrated suite of business applications. The web-delivered self-service applications will provide club members with the ability to track play, scoring and handicap statistics using IBM Kiosks while playing hole-by-hole on the Arena Golf turf as well as from a personal computer and wireless PDA. Integrated applications include Membership and Retail Management, Tee-time Scheduling, Association and Tournament Processing, Accounting, E-commerce, Sales and Inventory Management. Collectively, these essential components work together to help the flow of information throughout the Arena Golf operations and facilities.

"Arena Golf Inc has chose MBSII for their ability to bring our scoring system to life. It was important for us to choose the right technology partner. Their multipurpose software solutions will make Arena Golf very exciting to play says Eric Bruggeman CEO of Arena Golf. "Remember you can't be a player if you're not in the game."
